

prosecution of claims 1-29 and withdraws claims 30-31 from examination with traverse, and without prejudice.

3) Consistent with the specification, as will be apparent to those skilled in the art, a "spring" would include not only a traditional spring, but would also include elastomeric devices (e.g., rubber bands, silicon, elastic material, etc.) and other tensioning schemes.

4) Paragraphs 41, 42, and 47 in the specification corrected herein because of clerical errors.

5) Claim 3 has been revised from a dependant claim, to an independent claim, therefore an excess independent fee has been enclosed.

Respectfully submitted,

Ken S. Fisher
